**OUR PLEDGE REGARDING MEDICAL INFORMATION:**

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive for Rankin County Hospital District. We need this record to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by Rankin County Hospital District, whether made by our organizations or another provider that you were referred to. Other physicians you may see in the course of your treatment may have different policies or notices regarding the doctor's use and disclosure of your medical information created in the doctor's office or clinic.

This notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

The law requires us to:

- Make sure that medical information that identifies you is kept private;

- Give you this notice of our legal duties and privacy practices with respect to medical information about you; and
- Follow the terms of the notice that is currently in effect.

### **HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU**

The following categories describe different ways that we use and disclose medical information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

- **For Treatment** We may use medical information about you to provide you with medical treatment and services. We may disclose medical information about you to doctors, nurses, technicians, medical students, or other hospital personnel who are involved in taking care of your service. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can arrange for appropriate meals. Different departments of the organization also may share medical information about you in order to coordinate the different things you need, such as prescriptions, lab work and x-rays. We also disclose medical information about you to people outside the hospital we use to provide services who may be involved in your medical care. After you leave information may be released to family members, clergy or others that are part of your care.
- **For Payment** We may use and disclose medical information about you so that the treatment and services you receive may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give your health care information about treatment you received at Rankin County Hospital District to receive reimbursement for your care or reimburse you for the care. We may also tell your health plan about a treatment or service you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.
- **For Health Care Operations** We may use and disclose medical information about you for healthcare operations. These uses and disclosures are necessary to run the facility and to make sure that all of our patients receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many patients to decide what additional services the facility should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, medical students, and other hospital personnel for review and learning purposes. We may also combine the medical information we have with medical information from other health providers to compare how we are doing and see where we can make improvements in the care and services we offer. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific patients are.

- **Appointment Reminders** We may use and disclose medical information to contact you as a reminder that you have an appointment for medical care.
- **Treatment Alternatives** We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.
- **Health-Related Benefits and Services** We may use and disclose medical information to tell you about health-related benefits or services that may be of interest to you.
- **Fundraising Activities** We may use medical information about you to contact you in an effort to raise money for the facility and its operations. We may disclose medical information to a foundation related to the hospital district so that the foundation may contact you in raising money for Rankin County Hospital District. We would only release contact information; such as your name, address and phone number and the dates you received treatments or services at the facility. If you do not want the facility to contact you for fundraising efforts, you must notify the privacy officer in writing.
- **Individuals Involved in Your Care or Payment for Your Care** We may release medical information about you to a friend or family member who is involved in your medical care. We may also give information to someone who helps pay for your care. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.
- **Research** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use for medical information, trying to balance the research needs with patients' need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research and approval process, but we may, however, disclose medical information about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, so long as the medical information they review does not leave the facility. We will almost always ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care with the hospital district.
- **As Required By Law** We will disclose medical information about you when required to do so by federal, state or local law.
- **To Avert a Serious Threat to Health or Safety** We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
